

Qianqian Wang

UI/UX Designer

San Francisco, USA

Profile

What motivates me and gets me passionate is the opportunity to design user interfaces and make them beautiful as well as user friendly. My combined experience at different fields has taught me a lot about the gap between the user behavior and design. Thinking out of the box and detailing are something I take pride in with my work.

Experience

UI Designer @ Hubtag Inc.

06/2015 - Present

- Designed pixel-perfect mockups for Hubtag live streaming software dashboard, enhancing users' experience by providing new responsive layout for mobile devices.
- Redesigned Hubtag official landing page website, and created wireframes as well as hi-fi mockups for new layouts.
- Conducted user research and translated feedback into effective and innovative user experience.

UX Designer and Team Leader @ UW Capstone Together

12/2014 - 06/2015

- Led in designing user interfaces for Together, a cloud-based Chrome extension web application.
- Conducted usability test, and implemented feedbacks to enhance the user interface.
- Designed the Capstone presentation poster and created promotion video for introducing the application at Chrome Web Store.

Research Librarian @ Seattle Public Library

11/2014 - 07/2015

- Provided research support by gathering data and compiling information for management purposes and objectives.

PM Assistant @ Philip (China) Investment Co., Ltd

01/2013 - 07/2013

- Worked with supply-chain management team to gather and analyze the shipping, import, export information using SAP.
